About the Project

The 8.3 mile corridor along Interstate 10 (I-10) will connect the existing Valley Metro Rail system in central Phoenix to the greater West Valley.

In 2016, the Phoenix City Council and Valley Metro Rail Board of Directors approved a phased approach to what was then known as the Capitol/I-10 West Extension. Phase I, now known as the Capitol Extension, will connect downtown Phoenix to the Arizona State Capitol. Phase II, now known as the I-10 West Extension, will extend light rail along I-10 to the 79th Ave/I-10 Park-and-Ride. For more information on the Capitol Extension project please visit the project web page at valleymetro.org/capex.

PROJECT STATUS

- At Phoenix City Council direction, Valley Metro is evaluating several elements of the project:
  - A route extension to Desert Sky Transit Center, an additional 1.1 miles of light rail.
  - Options to potentially accelerate the project timeline
  - Transit types

  This activity will be driven by community engagement and dialogue through 2021.

NEXT STEPS

- Recommendations to Phoenix City Council on extending to Desert Sky Transit Center and on transit type are expected in fall 2021.
