ENGINEERS OF THE FUTURE
VIRTUAL PROGRAM

Jump online to begin a fun and exciting way to learn about (STEM) Science, Technology, Engineering, and Math!

Engineers of the Future is the ground-breaking program sponsored by Valley Metro and its engineering partner, PGH Wong, teaching 7th and 8th grade students STEM-based lessons. On the brand-new Engineers of the Future Website and YouTube Channel, Engineer-mentors teach STEM concepts through awesome project builds, hear inspirational guest lectures, and get a behind the scenes look at Valley Metro Light Rail project sites through virtual field trips.

Students Learn:

• The importance of math for their development.
• How engineers invent and innovate through design and technology.
• Critical thinking skills to encourage STEM learning.
• Positive, efficient communication leads to goal setting and teamwork.

SOCIAL MEDIA:
Students can use social media to show off their cool projects to impress their teachers, friends, and family.

Chart a path for success by starting to learn today by visiting the Engineers of the Future website and Engineers of the Future YouTube Channel today.
