About the Project

Valley Metro, in partnership with the cities of Glendale and Peoria, is conducting a study to identify a park-and-ride location to serve riders of Express Routes 573 and 575 and meet the transit needs of the Northwest Valley. The park-and-ride will serve express bus routes. Improvements are necessary to enhance the quality of transit service and support growing ridership.

The site selection phase of the study is complete. Four potential sites (identified in an earlier phase) were evaluated using a variety of criteria including location, size, parking capacity, access, costs and public input.

The recommended site for the park-and-ride is on 75th Avenue, north of Loop 101, in the existing parking lot at the Dream City Church.

PROJECT STATUS

• The study team is working with the property owners to determine the potential for shared parking.

NEXT STEPS

• The study team will identify needed improvements to the existing parking lot at the recommended site.
• The public outreach team will continue to gather input throughout the study.
• A service planning study will review Route 573 and Route 575 to determine how best to serve the new park-and-ride area.
