About the Project

Tempe Streetcar will serve one of the highest transit ridership centers in the region. It will connect riders to neighborhoods, major business centers, and regional events and destinations. As the Valley's first modern streetcar line, it will add to the comprehensive transit network in Tempe, which includes buses, circulators, light rail, bicycle and pedestrian amenities.

Streetcar vehicles are smaller than light rail vehicles and operate individually, not linked together like trains. Streetcar stops are similar to bus stops and occur more frequently than light rail stations.

The design includes:

- Off-wire operation through downtown on Mill Avenue and at gateway intersections
- Primarily shared roadway with vehicle traffic
- Landscaping and public art

PROJECT STATUS

- Installed the final piece of track in August.
- Began installation of stop structures.
- Installation of Overhead Catenary System (OCS) poles and wires.
- Local business outreach and support continues with webinars, resource sharing and one-on-one assistance.
- Community Advisory Board continues to assist in construction oversight and community feedback.

VALLEY METRO RAIL

NEXT STEPS

- Continue OCS installation in the wired portions of the route.
- Installation of public art at stops.
- Continue systems installation in advance of testing.

COST FORECAST*

	Programmed	\$ Expended	% Expended	Forecast
Construction	\$114,257,079	\$94,752,705	83%	\$114,330,687
